

What is e2L?

e2L is a harmonious union between two new technologies: eLearning systems and the eReader-based devices.

Why e2L?

Extensive pedagogical studies in the past few years have shown the effectiveness of eLearning systems in expanding student horizons and improving the way material is taught to them.

Empowering universities by means of increasing their students' interaction with existing eLearning systems is a key factor in enhancing the students' educational experience as well as educational institutions stature as a pioneer in education technology reform.

e2L solution can be deployed on any existing eLearning system including Moodle and BlackBoard among others. Students can choose between many e2L enabled devices such as the award winning Entourage Edge with its dual screen or even the iPad.

Key Features of e2L System

- Compact mobile knowledge base station
- Touch screen with digital ink for natural reading & writing
- Cross platform compatibility
- Seamless integration with any eLearning system
- Interactive collaboration environment
- Innovative push technology for instant updates
- Automatic calendar synchronization
- Active notifications and reminders
- Digital text book redistribution functionality
- Paperless, ink free environmental friendly solution

Make the move today and let your institution be
the leader in education!

A Revolution
that brings education to a whole
new level.

Introducing e2L

e2L™ is a revolutionary e-learning system that brings education to a whole new level. e2L is designed for the 21st century technology-oriented student while keeping in mind the modern educational institutions needs to deliver the best quality education.

Benefits to Students

Be Mobile

Forget the headache of gathering, ordering and carrying heavy materials, just grab your e2L-enabled device and access electronic copies of your entire libraries online anywhere you go.

Be Versatile

With the pen-enabled touch screen, write your notes directly on the textbook and share them with your classmates.

Communicate

With e2L instant messaging, communicate easily with your professors. Conversations are automatically posted on the eLearning forums for other members in the class to learn from.

Benefits to Educational Institutions

Cost Savings

With e2L's innovative digital textbook redistribution functionality, universities will be able to maintain and reuse limited quantities of books through a secure licensing with DRM protection. Moreover, e2L provides a centralized system to handle enrollment, teaching, announcements & updates that allows you to save even more through consolidation.

Deliver Exceptional Learning Experience

Easily find out areas of weaknesses and identify concepts or topics that students have most questions about. Improve the learning process by effectively covering these areas of weakness

Improve Knowledge Dissemination

With few clicks, new notes, assignments, and announcements can be published to all students enrolled in a course.

Go Green

e2L reduces the consumption of paper and ink.

Stay Current

Eliminate the risk of outdated information and receive instant updates from professors & TA's, thanks to e2L's innovative push technology.

Stay in Sync.

While e2L ensures your calendar is in sync with the campus calendar, active notifications remind you with due dates, lectures and exams schedule that have been set up by your professors.
